

Engineers Week's ***New Faces of Engineering*** program strives to promote engineering as an exciting profession open to everyone. By highlighting young, diverse, talented engineers, their achievements, and the impact of those achievements on society, Engineers Week aims to put a face on the "stealth" profession.

Individuals selected from the various engineering societies will be featured in a full-page ad in *USA Today* during Engineers Week (February 16-21, 2009). Each photo will be captioned with the engineer's name, the name of the engineering society providing the nominee, the employer, and a brief statement of that individual's accomplishments as they relate to the public welfare.

What Engineers Week and NSPE are looking for is an excellent "poster person" to present to the public--someone dynamic and successful who has already made a contribution at a young age. NSPE can present up to 5 members to be considered for selection. (To learn more about

Circulation will include not only *USA Today* but also the engineering trade press, the individual's local press, and the Web sites of Engineers Week and the sponsoring engineering societies, among others. (To learn more about Engineers Week, go to [www.eweek.org](http://www.eweek.org).)

New Faces provides a unique opportunity to learn from new engineers. The top candidates selected may be asked to participate in an e-mail and/or online Question and Answer discussion forum with engineering undergraduates globally.

If you're an NSPE member and an engineer intern or licensed working engineer two to five years out of college or graduate school who could represent the up-and-coming in the profession, fill out the nomination form and be sure to provide us with a 200-word description of your achievements in design, research, construction, or management. Focus on the details of the kind of work you do, its application and its impact. Also include information on what you do outside of work, including participation in society activities, EWeek, MATHCOUNTS, etc. Send the completed nomination form and your 200-word description as a Word documents attached to an email to [awards@nspe.org](mailto:awards@nspe.org). If you are selected for further consideration, we will follow up for more information.

Deadline for Submission is October 31, 2008.
